**To Whom so ever it may concern**

We ran a paid project with TheKVM (An open innovation, technology commercialization company) based in India headed by Ashish Kumar. We liked their business model it is quite interesting much different from other Business growth consultants. They deliver real sales numbers which rarely any consultant commits.

We would like to add that TheKVM team is quite professional & technically sound.

We would recommend their service strongly for new technology commercialization, JV formation in new regions & safeguarding IP rights. With their help we have not only got sales but also strategic JV partner. We wish them success in all future endeavors.
